If a Sheriff does not want the Federal Government in his county he has the Constitutional right and power to keep them out, or ask them to leave, or retain them in custody.

U.S. District Court decision: Case No. 2:96-cv-099-J (2006)

“The COUNTY SHERIFF is our nation's * LAST LINE OF DEFENSE*, for the preservation and return to, fundamental and individual liberty. America is at the threshold of what appears to be utter despotism. You are the people's last hope.”

---Oathkeeper Sheriff R. Mack (www.sheriffmack.com)

This is what Arizona's Most Decorated Officer, Jack McLamb, also an Oathkeeper, has to write:

“Millions of Europeans would have already died had it not been for one lab in Czechoslovakia fortuitously discovering only last November (2008) that the Baxter seasonal ‘flu vaccine’ that was about to be sent out was laced with a deadly, 63% LETHAL (i.e., 6 out of 10 would have DIED from that intentionally-poisoned vaccine!) lab-created Bird Flu virus. Despite an ongoing Austrian police investigation, due to the efforts of Austrian Journalist, Jane Burgermeister (www.theflucase.com) Baxter is still one of the major players contracted by WHO to supply ‘swine flu vaccine’ all over the world! Perhaps to be mandatorily injected into YOU! Yes, FORCED upon us under threat of being “quarantined” within FEMA “Detention Centers” as is now law* (even though said “laws” are blatantly unconstitutional and therefore technically void from their inception).” And he continues to write on his website www.JackMcLamb.org:

“Forced vaccination -or "vaccine rape" really is a CRIME just as surely as if someone stabbed you with a poison needle against your will. In fact, it is just that! If you doubt that such unconstitutional orders are lurking very near, possibly just weeks away, please visit www.jackmclamb.org. We all need the Police officers to obey their oath to the Constitution that makes our Country great---not to Unconstitutional and therefore unlawful orders.”

We can only hope that you will agree with Arizona's most decorated officer that it's time to mobilize---Immediately! **For**, if martial law is declared, then the president overrules the Sheriff. Please take careful note of that because that is precisely what we must avoid at all costs. You must remain in charge. http://en.wikipedia.org/wiki/H.R._5122_%282006%29

So we humbly call on you as “America's Last Defense”, to empower yourself with Sheriff Mack's short 50-page book, now available free to you at www.CallingAllSheriffs.info May it inspire you to your full powers as it has inspired other sheriffs across our great nation. The website, www.CallingAllSheriffs.info also provides links to Officer McLamb and to the fast growing organization of patriots in uniform, the Oathkeepers.

May you grasp the full sense of gravity with which we send this message. *Everything is hinging on your response to this information. Everything.*
